

**This is a list of contractors who have indicated interest in doing residential hook up work in Koontz Lake. The District is providing this list as a service to the residents, with the following caveats:**

- 1.) Listing these contractors should in no way be construed as an endorsement of the contractors.
- 2.) It is the responsibility of the resident(s) to verify that any contractor they select is licensed to perform work in the county where the home is located.
- 3.) There may be other contractors who are interested. If so, they can contact the District or the Engineers by email or phone, and we will immediately add their company name to the list.
- 4.) We may have mistakenly listed a contractor who has decided to decline to perform this work. If this is the case, the contractor may contact the District or the Engineers by email or phone, and we will immediately remove their name from the list.
